(910) 253-4305 Fax

Permit No.: WQCS00284

Name: Brunswick County

In the year 2008-2009, the County of Brunswick's Public Utilities Wastewater Collections System experienced continued growth. Fifteen sewer pump stations were added to the system, bringing the total to 112 County-owned stations. Additionally, the County has 5 pump stations under construction or completed pending approval.

A Residential Grinder Pump Station Repair Program was added last year and the results have been positive. The County heavy repair and maintenance group continued to upgrade and repair the older pump stations to increase reliability. Over 10% of the County sewer system was cleaned and inspected by March 2009.

Brunswick County Collections Division had no reportable sewer spills in the year 2008-2009. The County has been aggressive in its Operator Training Program and is pleased to have 6 employees in the year 2008-2009 receive Collection System Operator Certifications. As the system continues to grow we are committed to providing the customers of Brunswick County with the highest level of service possible.

It is the County's intent to provide a copy of this report to the State of North Carolina by mail in July 2009 and to our customers. The report will be available on the County website (www.brunswickcountync.gov) and published in *The Brunswick Beacon* and *The State Port Pilot* County newspapers.

I hereby certify this report is complete and accurate to the best of my knowledge.

Steve M. Hlastala
Collections System Superintendent/Operator in Responsible Charge
